INT. DESK SEGMENT

ALEC

Good evening. Welcome to the NoHo Rag. I'm Alec Reidel. Here's what's going on in our world.

(beat)

Coming up later: we've got an interview with billionaire entrepreneur Elon Musk.

(beat)

But first, let's take a look into the incest capitol of the world, Indiana.

(beat)

You may know it for its illegal fireworks, that gene hackman basketball move and **bigotry**.

(beat)

That's right, Indiana governor Mike Pence signed RFRA, the religious freedom restoration act, into law. It's stated goal is to protect the religious beliefs of business owners...

(beat)

I'm just kidding, it's because they hate the gays.

(beat)

The new law allows businesses to deny services to those pesky butt fuckers.

(beat)

Joining us now is John Quincy Steamberg, who runs a business in southern Indiana.

(beat)

Now Mr. Steamberg is it true that you are now denying service to homosexuals.

JOHN QUINCY STEAMBERG is wearing a plaid shirt, hair neatly coiffed.

JOHN

That's right! Mmmm Hmmm, I don't want them sullyng my fine family establishment.

ALEC

That being the Good Way Sex Emporium?

John slams a dildo on the desk.

JOHN

Finest fake cocks this side of the mississip! Absolutely!

ALEC

But, is your hard lined stance not seriously cutting in to your sales?

JOHN

Don't care. Don't need 'em.

(beat)

Indiana is drowning in bored housewife poontang.

(beat)

I can't restock my shelves fast enough.

(beat)

I gotta beat them away with a Tantus Thwack Paddle.

(beat)

Which, by the way is on sale for \$19.95

ALEC

So hypothetically, if a homosexual man were to enter your emporium.

JOHN

(sotto)

Oh please, Alec. I have a weak heart.

ALEC

And the man asked for a vibrating cock ring.

JOHN

(sotto)

Oddly specific, Alec.

ALEC

What would you tell him?

JOHN

Well Alec, I would avert my eyes, as my church tells me to do.

(beat)

I would then politely explain that my religion expressly forbids me from dealing sexual wares to subversive mental aberrations.

ALEC

Subversive mental whatnows?

JOHN  
The gays, Alec. The **gays**...

ALEC  
But you are aware that after great public outcry the bill was amended to prevent sexual orientation discrimination.

JOHN  
To be honest, Alec, it was only a matter of time. These are the breaks of being a bigot.  
(beat)  
Luckily, there are plenty of other groups I can freely discriminate against.

ALEC  
Oh no...

JOHN  
People who wear mittens, people born in July  
(sotto)  
Arrogant fucks.  
(beat)  
And psychiatrists.

ALEC  
Psychiatrists?

JOHN  
They're into some weird shit.  
(beat)  
Why, just the other day one of those barbarians came sauntering in and asked for the fifty shades of grey pleasure balls.  
(beat)  
A steal at \$34.95.  
(beat)  
But, I roundly refused to sell to that antisocial enemy of the people.

ALEC  
That's not very Christian.

JOHN  
Christian? Oh Xenu, no.  
(beat)  
I'm a Scientologist! OT-7, baby!  
(MORE)

JOHN (CONT'D)  
Just another hundred grand, and I'm  
clear!

ALEC  
You're being swindled, John Quincy  
Steamberg.  
(beat)  
Thanks for coming on the Rag!

END JOHN INTERVIEW WITH HANDSHAKE.

ALEC (CONT'D)  
Rand Paul, second-generation idiot,  
has announced his bid for joke  
candidate 2016.  
(beat)  
The Kentucky native hopes to  
destroy the Washington machine by  
taking control of it and running it  
into the ground.  
(beat)  
This is like becoming a German  
Wings co-pilot just to crash your  
plane in the French Alpes.

Alec gives a shit-eating grin into the camera for a beat.

ALEC (CONT'D)  
Sony Pictures is resurrecting the  
Ghostbusters franchise after  
decades of speculation.  
(beat)  
Rather than the Ernie Hudson  
vehicle we all feared, Paul Feig of  
Freaks and Geeks fame is enlisting  
four of the funniest women alive  
for the new project.  
(beat)  
But Sony didn't stop there, because  
they're imbeciles. And this has  
made our very own Chip Sterling  
quite irate.

Chip Dance.
